Important Health Warning About Playing Video Games

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms – children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: sit farther from the screen, use a smaller screen, play in a well-lit room, and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

PACKAGE CONTENTS

SUPABOY SFC SYSTEM

MICRO USB CHARGE CABLE

AV CABLE

POCKET POUCH

WRIST STRAP

USER SAFETY PRECAUTIONS

- Do not expose SupaBoy SFC to direct sunlight or extreme temperatures for extended periods of time.
- Please store SupaBoy SFC at room temperature, which is between 40°F and 80°F.
- When transporting or temporarily storing in a vehicle, temperature should not exceed 150°F or fall below 20°F.
- Storing SupaBoy SFC at temperatures greater than 170°F for extended periods of time may cause damage to the battery, overheat the device, or cause potential fire.

Observe signs of overheating from overcharging. Stop usage or charging if you detect swelling, smoke, or high temperatures and dispose of the battery pack safely and away from flammable materials.

CHARGING THE BATTERY

Attach the MICRO USB CHARGE CABLE to the SupaBoy SFC, located on the top of the SupaBoy SFC System. Make sure the other end of the cable is connected to a power source (PC/MAC USB port or USB AC adapter). The LED INDICATOR on the top of the SupaBoy SFC System will light up RED, indicating that the SupaBoy SFC is charging. LED INDICATOR will light up GREEN when the SupaBoy SFC is fully charged.

HEADPHONES, VOLUME, & BRIGHTNESS

To use headphones with the SupaBoy SFC:

1. Insert headphones into the HEADPHONE JACK located on the bottom of the SupaBoy SFC system.
2. Use the VOLUME CONTROL on the bottom of the SupaBoy SFC system to adjust volume levels.

To adjust the volume of the SupaBoy SFC:

1. On the bottom of the SupaBoy SFC system, there is a scrolling VOLUME CONTROL dial. To raise the volume, scroll the VOLUME CONTROL to the right; to lower the volume, scroll the VOLUME CONTROL to the left.

SUPABOY SFC BOTTOM

To adjust the screen brightness:

Located on the bottom of the SupaBoy SFC is a BRIGHTNESS BUTTON. Pushing it allows you to cycle through 5 different brightness settings, including turning the screen OFF (useful for conserving battery during AV OUT mode).

To switch aspect ratio:

Hold the BRIGHTNESS BUTTON for 3-5 seconds to switch from 4:3 aspect ratio to 16:9. Hold it again to switch back to 4:3.

PLAYING GAMES

The SupaBoy SFC is able to play NTSC SNES/SFC and PAL SNES cartridges.

1. Insert the game cartridge (label side facing towards yourself) into the CARTRIDGE SLOT, found on the top of the SupaBoy SFC.
2. Turn the ON/OFF switch to the ON position.

** If the game cartridge is a PAL game, be sure to adjust the NTSC/PAL switch to PAL before turning the console ON.*

RESET A GAME

To reset a game, press the RESET button located on the top of the SupaBoy SFC above the screen.

USING CONTROLLERS

To play games using the controller ports of the SupaBoy SFC:

1. Insert a controller into CONTROLLER PORT 1.
2. To play with two controllers with the SupaBoy SFC, insert a controller into CONTROLLER PORT 1, then insert the other controller into CONTROLLER PORT 2.

Note: This can be done while the SupaBoy SFC is ON or OFF. Also, when the controller is plugged into Controller 1, the DIRECTIONAL PAD and the face buttons on the SupaBoy SFC system will be disabled until the controller is unplugged from CONTROLLER PORT 1.

OUTPUTTING TO TV

To connect the SupaBoy SFC system to the TV:

1. Insert the AV CABLE provided with the system into the AV OUT slot located on the top of the SupaBoy SFC system. This can be done while the SupaBoy SFC is ON.
2. Insert the AV CABLE into the composite input connector on the TV.

Note: This can be done while the SupaBoy SFC is ON or OFF. The original SNES/SFC systems were designed to be played on a standard definition tube TV. When connecting the SupaBoy SFC system into an HDTV, some accessories may not be compatible.

Pour votre sécurité pendant l'utilisation de ce produit, nous vous conseillons de lire attentivement ce mode d'emploi et de conserver ce document pour pouvoir les consulter ultérieurement. A lire avant toute utilisation d'un jeu vidéo par vous-même ou par votre enfant.

Précautions à prendre dans tous les cas pour l'utilisation d'un jeu vidéo

Évitez de jouer si vous êtes fatigué ou si vous manquez de sommeil. Assurez-vous que vous jouez dans une pièce bien éclairée en modérant la luminosité de votre écran. Lorsque vous utilisez un jeu vidéo susceptible d'être connecté à un écran, jouez à bonne distance de cet écran de télévision et aussi loin que le permet le cordon de raccordement. En cours d'utilisation, faites des pauses de dix à quinze minutes toutes les heures.
